WHAT IS EMPOWERED TO SERVE?

EmPOWERED to Serve is a movement inspiring those who are passionate about driving change through health justice in their communities.

We are catalysts for change, empowering the equity equation.

AHA’s Mission Statement:
To be a relentless force for a world of longer, healthier lives.
GO RED FOR WOMEN

Go Red for Women®
is a platform designed to:

• Increase women’s heart health awareness.
• Serve as a catalyst for change to improve the lives of women globally.

For 16 years, GRFW has provided a platform for women to come together, raise awareness, fund lifesaving research, advocate for change and improve the lives of all women everywhere.
GO RED FOR WOMEN

Go Red offers women the opportunity to:

• Learn about heart disease and stroke.
• Access the latest healthy living tips to reduce their risk and improve their overall well-being.
• Participate in research and advocacy.
• Share their story with others.
• Get involved in their local community.
UNDERSTAND YOUR RISK

Did You Know?

Cardiovascular disease is the No. 1 killer of women, claiming the lives of one in three women.

• CVD kills more women than all forms of cancer combined.
• About four million stroke survivors alive today are women.
• Over 40% (about 43%) of Hispanic adult women age 20+ have CVD.
• CVD claims the lives of more black women than all forms of cancer, accidents, assaults and Alzheimer’s disease – combined.
UNDERSTAND YOUR RISK

The good news is 80% of cardiac events can be prevented if women make the right choices for their hearts including:

Moving more.  
Eating smart.  
Managing blood pressure.
UNDERSTAND YOUR RISK

Risk Factors You Can Control

- Smoking
- Being overweight or obese
- High blood pressure
- High blood sugar
- High cholesterol
- Lack of physical activity
UNDERSTAND YOUR RISK

Risk Factors You Can’t Control

• Age
• Race/Ethnicity
• Gender
• Family History
• Previous Heart Attack or Stroke
UNDERSTAND YOUR RISK

Know Your Numbers

There are five numbers that all women should know to take control of their heart health:

1. Total Cholesterol
2. HDL (good) Cholesterol
3. Blood Pressure
4. Blood Sugar
5. Body Mass Index (BMI)
KNOW THE WARNING SIGNS

Did You Know?

• Women having heart attacks may wait more than 30% longer than men from the moment they begin experiencing symptoms to the time they arrive at a hospital.
• Women are less likely than men to receive bystander CPR.
• Female heart attack patients may have better outcomes when treated by female physicians.
KNOW THE WARNING SIGNS

Heart Attack

Some heart attacks are sudden and intense, but most of them start slowly, with mild pain or discomfort.

Following are some of the signs that can mean a heart attack is happening.

If you have any of the signs, don’t wait! **Call 911. Get to a hospital right away.**
KNOW THE WARNING SIGNS

Heart Attack Warning Signs

• Uncomfortable pressure, squeezing, fullness or pain in the center of your chest.

• Pain or discomfort in one or both arms, the back, neck, jaw or stomach.

• Shortness of breath with or without chest discomfort.

• Other signs, such as breaking out in a cold sweat, nausea or lightheadedness.
KNOW THE WARNING SIGNS

Heart Attack Warning Signs
As with men, women’s most common heart attack symptom is chest pain or discomfort.
But women are somewhat more likely than men to experience some of the other common symptoms, particularly shortness of breath, nausea/vomiting and back or jaw pain.
Know the Warning Signs

Stroke Warning Signs

- Sudden numbness or weakness of the face, arm or leg, especially on one side of the body.
- Sudden confusion, or trouble speaking or understanding.
- Sudden trouble seeing in one or both eyes.
- Sudden trouble walking, dizziness or loss of balance or coordination.
- Sudden, severe headache with no known cause.
Did You Know?

- Only **one in five U.S. women** is getting the recommended amount of physical activity under federal guidelines.
- About **50 million women** have hypertension in the U.S.
- About **45 percent of U.S. deaths caused by heart disease, stroke and Type 2 diabetes** are due to poor dietary habits.
JOURNEY TO BETTER HEALTH

That’s why AHA has launched the Journey to Better Health

• This program provides you the opportunity to learn to:
  – Move More.
  – Eat Smart.
  – Manage Your Blood Pressure.

• Choose one, two or all three paths.

• Each path offers a step-by-step blueprint to help you make these heart-healthy habits a simple part of your daily routine.
