

Self-Reflection: Identifying Triggers and Tools for Coping

Instructions: Think about times recently when you were upset or frustrated. Use the questions below to explore what happened, what you were thinking and feeling, and how you responded. Then, come up with ideas or coping strategies that might help you handle similar situations in the future.

| What happened | My thoughts | How I felt | What I did | How I can cope better next time |
|---------------|-------------|------------|------------|---------------------------------|
